PROFESSIONAL SUMMARY

Dynamic and solutions-driven **Frontend Developer** with a proven ability to design and deliver **intuitive, visually appealing, and high-performance web applications**. Transitioning from a **civil engineering background**, I bring an **analytical mindset** and a focus on delivering robust, scalable, and user-centric digital solutions. Expertise in cutting-edge web technologies, including:

- **Frontend Development**: **React.js**, **Next.js**, **JavaScript ES6**+, **HTML5**, **CSS3**, **Material UI**, **Tailwind CSS**
- **Backend Development**: **Node.js**, **REST APIs**
- **Databases**: **SQL**, **Firebase**
- **Version Control**: **Git**, **GitHub**

Successfully executed **projects** like a **Reddit Clone**, **Booking.com Clone** and an **Interactive Portfolio Website**, showcasing a deep understanding of **responsive design principles**, **state management**, and **clean code architecture**.

Seeking an opportunity to contribute to innovative, tech-driven teams that prioritize creativity, growth, and impactful software solutions.

EDUCATION

Bachelor of Engineering (Civil Engineering) | VSMSRKIT, Nipani | 2017 - 2021 | Grade: 78.0%
Intermediate (Class XII) | GSS, Belgavi | 2016 - 2017 | Grade: 65.0%
Matriculation (Class X) | Sai High School, Mangur | 2015 - 2016 | Grade: 91.0%

CERTIFICATIONS Link

- **Full Stack Development Certification** | Newton School | **March 2023**
  - Proficiency in **Data Structures and Algorithms** with Java.
  - Specialized in **MERN Stack Development**, encompassing **React.js**, **Node.js**, **Next.js**, **JavaScript** and modern **CSS frameworks**.
  - Participated in hands-on projects and coding challenges, demonstrating expertise in **real-world problem-solving** and **enterprise-level application development**.

PROJECTS

Reddit Clone | [GitHub](#) | [Live Demo](#) | June 2024
- **Key Features**:
  - **Authentication and Authorization**: Secure login/signup using **JWT** and hashed passwords.
  - **Dynamic Post Management**: CRUD operations for creating, editing, deleting text/image-based posts.
  - **Community Integration**: Support for creating and moderating subreddits.
  - **Responsive UI**: Designed with **React.js** and styled using **Tailwind CSS** for seamless usage across devices.
- **Tech Stack**: React.js, Tailwind CSS

Booking.com Clone | [GitHub](#) | [Live Demo](#) | May 2024
- **Key Features**:
  - **User Authentication**: Secure email/password login with encryption.
  - **Search and Filter**: Advanced search and sort options integrated with **RESTful APIs** for fetching real-time data.
  - **Sorting Options**: Sort search results by price, ratings, or departure time.
  - **Scalable Architecture**: Deployed using **React Router**, **Redux** for state management, and **CSS** for maintainable styling.
- **Tech Stack**: React.js, Redux, CSS

Portfolio Website | [GitHub](#) | [Live Demo](#) | April 2024

- **Key Features**:
  - **Interactive UI**: Dynamic navigation showcasing skills, experience, and portfolio projects.
  - **Optimized Deployment**: Hosted on **Vercel** with CI/CD pipeline setup for seamless updates.
- **Tech Stack**: Next.js, Tailwind CSS

SKILLS

Programming & Markup Languages
- **Proficient**: JavaScript (ES6+), HTML5, CSS3, SQL, Java
- **Tools & Frameworks**: React.js, Next.js, Node.js, Material UI, Tailwind CSS
- **Database Management**: Firebase, SQL

EXTRA-CURRICULAR ACTIVITIES

- Spearheaded the development of the **VadaPav website** using HTML and CSS, focusing on clean design and user-friendly interface.
- Designed and developed the **ISRO Centers Explorer platform**, focusing on search functionality, responsive design, and interactive user interfaces using JavaScript.
- Regular contributor to **open-source projects**, improving peer collaboration and learning through GitHub repositories.
- Transitioned from a **civil engineering background** to full-stack development through rigorous learning, project experience, and coding competitions.
